Joinville, SC, Brazil
linkedin.com/in/joaoluizv

Objective:

Web Developer with a hybrid profile, combining Front-end programming and UI/UX Design concepts. Focused on creating interfaces that not only work technically but offer intuitive and visually impactful user experiences. I seek to work on building modern web applications, ensuring fidelity to the layout, code quality, and creativity with innovative ideas.

Education

- Escola Técnica Tupy
IT Technician, integrated with high school. Start: 03/2020 – Conclusion: 11/2021

- Unisociesc
Computer Engineering (Bachelor's Degree)
Start: 03/2023 – In Progress

Experience

Erzinger Industria Mecânica | 08/2021 - 09/2022
[Engineering Intern]
Role: Responsible for creating screen designs and front-end programming for the company's industrial process monitoring application.

A1Hub/Abecker Loteamentos | 05/2023 - 06/2024
[Communication and Marketing Intern]
Role: Responsible for creating and managing content for the company's social media, as well as designing materials for marketing and internal communications (endomarketing).

Sizebay | 06/2024 - 01/2025
[Development and Integration Intern]
Role: Responsible for performing product integration for clients and acting in technical support directly related to product functionality.

Sizebay | 01/2025 - Present
[Technical Support and Integration Analyst]
Role: In addition to continuing operational integration functions, I work on process analysis and optimization. I lead the implementation of improvements both within the integration team scope and across other company squads.
